

PALAMO[®]

ONE PRODUCT AGAINST ALL WEEDS IN CORN!

THANKS TO PERFECT SYNERGY CREATED BY TWO
ACTIVE INGREDIENTS AND
IT PROVIDES A POWERFULL CONTROL
ON DIFFICULT TO - CONTROL WEEDS.

I S B
Globe

CONTROLS THE WEEDS ON EARLY
STAGE AND WEEDS CANNOT COMPETE WITH CORN

PALAMO®

Palamo is a mixture of 267.9 g/l Pendimethalin + 110.3 g/l Clomazone and it is a selective and persistent herbicide that is effective by inhibiting both chlorophyll and carotenoid biosynthesis. It provides superior and safe success in controlling narrow and broad-leaved weeds.

Crop	Diseases	Rate
CORN	Green cockscomb (<i>Amaranthus viridis</i>) Devil's Apple (<i>Datura stramonium</i>) Shallot (<i>Echinochloa crus-galli</i>) Red-rooted foxtail (<i>Amaranthus</i>) Retroflexus Spotted millet (<i>Echinochloa colonum</i>) Purslane (<i>Portulaca oleracea</i>)	125 ml/da Pre-Emergence
COTTON	Cockscomb (<i>Amaranthus viridis</i>) Shallot (<i>Echinochloa crus-galli</i>) Red-rooted foxtail (<i>Amaranthus</i>) Retroflexus Spotted millet (<i>Echinochloa colonum</i>) Purslane (<i>Portulaca oleracea</i>)	125 ml/da Pre-Emergence
